Material Safety Data Sheet

CLEAN FORCE TIDAL WAVE BREAK

Section 1. Chemical product and company identification

: CLEAN FORCE TIDAL WAVE BREAK Trade name

Product use : Laundry product : Puritan Services Inc. Supplier 655 Lone Oak Drive

Eagan MN 55121 1-800-275-8914

Code : 951681-02

Date of issue 30-November-2005

> **EMERGENCY HEALTH INFORMATION: 1-800-328-0026** Outside United States and Canada CALL 1-651-222-5352 (in USA)

Section 2. Composition, Information on Ingredients

CAS number % by weight Name sodium hydroxide 1310-73-2 37 potassium hydroxide 1310-58-3 4

Section 3. Hazards identification

Physical state Emergency

overview

: Liquid. (Liquid.) : DANGER!

CAUSES RESPIRATORY TRACT, EYE AND SKIN BURNS.

HARMFUL IF SWALLOWED.

Do not ingest. Do not get in eyes, on skin or clothing. Do not breathe vapor or mist. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Potential acute health effects

Eves : Corrosive to eyes. Skin : Corrosive to the skin.

Inhalation : Corrosive to the respiratory system.

Ingestion : Harmful if swallowed. Causes burns to mouth, throat and stomach.

See toxicological Information (section 11)

Section 4. First aid measures

Eye contact : In case of contact, immediately flush eyes with cool running water. Remove contact lenses and

continue flushing with plenty of water for at least 15 minutes. Get medical attention

immediately.

: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while Skin contact

removing contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean

shoes before reuse. Get medical attention immediately.

Inhalation : If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult,

give oxygen. Get medical attention immediately.

: Rinse mouth; then drink one or two large glasses of water. Do not induce vomiting. Never give Ingestion

anything by mouth to an unconscious person. Get medical attention immediately.

Section 5. Fire fighting measures

Flash point

Fire fighting media and

instructions

: Use an extinguishing agent suitable for surrounding fires.

Dike area of fire to prevent product run-off.

No specific hazard.

for fire-fighters

Special protective equipment: Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full facepiece operated in positive pressure

mode.

Page: 2/4

Section 6. Accidental release measures

Personal precautions : Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Prevent entry into sewers, water courses, basements or confined areas.

Environmental precautions Methods for cleaning up

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and

: If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.--

Section 7. Handling and storage

Handling

: Do not ingest. Do not get in eyes, on skin or on clothing. Keep container closed. Use only with adequate ventilation. Do not breathe vapor or mist. Wash thoroughly after handling.

Storage

: Keep out of the reach of children. Keep container tightly closed. Keep container in a cool, wellventilated area.

Store between 10 and 45°C

Section 8. Exposure Controls, Personal Protection

Engineering controls

: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits. Provide eyewash and safety shower in area if contact or splash hazard exists.

Personal protection

Eyes

: Use chemical splash goggles. For continued or severe exposure wear a face shield over the

goggles.

Hands : Use chemical resistant, impervious gloves.

Skin : Use synthetic apron, other protective equipment as necessary to prevent skin contact.

: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a Respiratory

risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the

selected respirator.

Name **Exposure limits**

sodium hydroxide OSHA PEL (United States, 8/1997).

> TWA: 2 mg/m³ 8 hour(s). Form: All forms ACGIH TLV (United States, 1/2004).

CEIL: 2 mg/m³

ACGIH TLV (United States, 1/2004). potassium hydroxide

CEIL: 2 mg/m3 Form: All forms

Section 9. Physical and chemical properties

: Liquid. (Liquid.) Physical state Colorless. Color Odorless. Odor : 13 (100%)

Specific gravity : 1.454 (Water = 1) Dispersion properties : Easily dispersed in cold water, hot water.

: Easily soluble in cold water, hot water. Solubility

Section 10. Stability and reactivity

Stability : The product is stable.

Reactivity : Slightly reactive to reactive with organic materials, metals, acids, alkalis.

Section 11. Toxicological information

Potential acute health effects

Eyes : Corrosive to eyes.
Skin : Corrosive to the skin.

Inhalation : Corrosive to the respiratory system.

Ingestion: Harmful if swallowed. Causes burns to mouth, throat and stomach.

Potential chronic health effects

Chronic effects on

: Contains material which causes damage to the following organs: lungs, upper respiratory

humans

tract, skin, eye, lens or cornea.

Section 12. Ecological information

Products of degradation: Some metallic oxides.

Section 13. Disposal considerations

Waste disposal

: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority

requirements.

Waste : Unused product is D002 (Corrosive)

classification

Consult your local or regional authorities.

Section 14. Transport information

Regulatory information	UN number	Proper shipping name	Class	Packing group	Additional information
DOT Classification	UN3266	Corrosive liquid, basic, inorganic, n.o.s.(Sodium hydroxide, Potassium Hydroxide)	8	II	Limited quantity Yes. Special provisions B2, IB2, T11, TP2, TP27

APPLIES ONLY DURING ROAD TRANSPORT

Any variation of the shipping description based on the packaging is not addressed.

Section 15. Regulatory information

HCS Classification : Corrosive material

Target organ effects

U.S. Federal regulations: SARA 302/304/311/312 extremely hazardous substances: None.

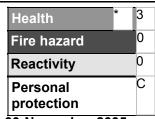

SARA 302/304 emergency planning and notification: None.

TSCA 8(b) inventory : All materials are listed or exempt.

California prop. 65 : No products were found.

Section 16. Other information

Hazardous Material Information System (U.S.A.)

Date of issue : 30-November-2005.

Responsible name : Regulatory Affairs

Date of previous issue : No Previous Validation.

Notice to reader

The above information is believed to be correct with respect to the formula used to manufacture the product in the country of origin. As data, standards, and regulations change, and conditions of use and handling are beyond our control, NO WARRANTY, EXPRESS OR IMPLIED, IS MADE AS TO THE COMPLETENESS OR CONTINUING ACCURACY OF THIS INFORMATION.
